

# PRODUCT DATA SHEET

## Analysis unit - flowplus-MONITOR QC

- Intermittent recording and storage of one or two pressure signals
- Evaluation of pressure signals using previously defined limit curves/ranges ("teach in")
- Easy and intuitive operation
- 5" colour touch screen
- Voltage signal processing (0 – 10 V)
- Compatible with flowplus16 and flowplus-SPT M6
- Easy assembly (plug & play and start up)
- Data backup with USB stick possible

Technical data	flowplus-SPT M6
Dimensions	136 x 96 x 32 mm
Weight	263 g
Electrical data	24 V DC, 1A, Protection class IP20
Ambient temperature	+10° C to + 40° C
Connections	2 x M8 flange socket, 4 pin (for sensor connection) 1 x USB port, female (for data storage and software updates) 1x Sub-D, 15 pin (for power supply and I/O signals) 1 x LAN Ethernet port, RJ45 (for network connection)
Attachment option	4 x M3 thread, depth 4 mm Square layout, 13 x 13 mm spacing
